

The BACHELOR

Protestant Reformation Edition

Directions: During the Protestant Reformation, Martin Luther's message of protest and reform grew quickly and gained many supporters, BUT some of them may not have been "there for the right reasons." Using your **textbook Chapter 13 Sections 3-4** and the **Crash Course video on the Reformation**, examine each of the individuals and groups below who supported the Protestant movement, describe how they showed support for Luther's message, and determine why they did it, what motivated them. In the end, decide whether they were motivated by religious or secular (such as political, economic, social) reasons. If they did it for religious reasons, because they really believed, then **give them a rose**. If they had other motives, and were in it for their own benefit, **send them home!**
