THE VERY SHORT 20TH CENTURY: WWII & COLD WAR

Directions: Watch the John Green Crash Course videos on World War II and the Cold War (from the original series, although the other WWII videos John has are really awesome and highly recommended). As you watch, fill out the simple organizer below to record notes as you watch. The better the notes you take, the more it will help you review for Regents! You can find the videos on PupilPath or by going directly to [youtube.com/crashcourse](https://www.youtube.com/crashcourse) and checking out the original World History playlist.
