

Name _____ Date _____ Period _____ Class _____

Questio: _____

Nunc Agenda: Working individually, look over your interim assessment and put a star next to the 6-10 questions you found the most. Then, as a group, compare your choices and try to identify the 5 questions you all found most challenging.

IA ANALYSIS AND REFLECTION

Directions: From the questions you discussed above and those we discussed as a class that the data showed to be the most problematic. Choose 6 questions to analyze and reflect upon using the organizer below. Of the 6, you should agree on at least 3 as a group that you will all analyze together, and then 3 that you will analyze separately. Looking at the first 3 together should give you the practice to be able to analyze the other 3 on your own, but also help and seek help from your group mates.

| Q# | Reason you struggled (ID content or skill) | How to address this content/skill |
|----|---|--------------------------------------|
| | | |
| | | |
| | | |
